

VEHICLES ELIGIBLE FOR UNDER-14' FARE CATEGORY

Last Updated: October 24, 2011

The following table provides a list of vehicles that are or have been available for sale in the US in the last few decades that are shorter than 14'. The list provides each vehicle's make, model, and length, as well as the last year the model is eligible for the discount. A vehicle may become ineligible after a certain year because it was discontinued or because a model redesign made the car 14 feet and longer.

Given data limitations, this list is not exhaustive of all vehicles that are less than 14 feet. **Other vehicles may be eligible, and should be measured at the tollbooth.** Additionally, this list should be updated in future years to determine if currently eligible models have been discontinued or have increased in length.
